## FOUNDATION

THE ESTABLISHMENT of the Capuchin Fathers at Mt. Calvary, in 1856, led to the foundation of a college in which postulants for the Order might be prepared for their vocation. To make this College more generally useful its doors were opened in 1861 to young men aspiring to the holy priesthood among the secular clergy. The attendance during the first years was small and the growth of the institution slow, owing to the poverty of the founders, the limited means of the early Catholic settlers and all those difficulties and embarrassments with which pioneers must contend. The modest beginning, however, continued to prosper, almost every year witnessing some addition or alteration, until the traditional quadrangle of the monastery was completed and surrounded by a group of buildings for the accommodation of students.

The main building of the present College was erected in 1881, and in the same year the Province of St. Joseph of the Capuchin Order was incorporated, pursuant to the Laws of the State of Wisconsin, for the purpose of conducting churches and colleges.

# GENERAL INFORMATION

*Direction* — St. Lawrence College stands under the direction of the Capuchin Fathers of the Province of St. Joseph, whose Provincial is ex-officio President of the College and whose Definitors are its Trustees.

*Name* — Its patron and model is St. Lawrence, an illustrious Saint of the Order of Capuchins. Born at Brundusium, Italy, July 22, 1559, he entered the newly founded Order of Capuchins at the age of 16. In his earliest youth he had exhibited a wonderful development of the faculties of his mind and heart, and in his higher studies at Padua he excelled above all his competitors in intellectual penetration, retentive memory, gentle disposition and untiring diligence. His knowledge of Latin, Greek, Hebrew, Chaldaic, German, Bohemian, French and Spanish were considered miraculous. His facility in dealing with the most intricate philosophical and theological questions, together with oratorical powers and profound piety, caused him to be appointed Lector of the Venetian Province of the Order when only 22 years of age. He soon after became Guardian, in 1587; Provincial, in 1593; Definitor General, in 1596; Papal Legate to Germany, in 1599; the inspiring director of the Christian forces against the Turks, in 1601; General of the Order, in 1602; Papal Envoy to Germany, in 1606; to Bavaria, in 1609; to Spain, in 1619. He died July 22, 1619, was beatified in 1783, and canonized by Leo XIII, December 8, 1881.

*Object* — The aim of this institution is to prepare young men for the holy priesthood.

*Location* — St. Lawrence College enjoys a very healthful location, 600 feet above Lake Michigan and 400 feet above Lake Winnebago, only a few miles distant. It is sufficiently elevated to enjoy a bracing atmosphere, at the same time sufficiently remote from the chilling vapors of the lake. In its elevated location it commands a charming view of one of the most fertile and best cultivated sections of Wisconsin. The surrounding grounds have been attractively improved to make Mt. Calvary a secluded and pleasant retreat for the lover of study.

*Accessibility* — Mt. Calvary is a small village 12 miles east of Fond du Lac and one mile and a half from Calvary, a station on the Fond du Lac and Sheboygan branch of the Chicago & Northwestern railroad. Connections are made at Fond du Lac with the main line of the Chicago & Northwestern, the Chicago, Milwaukee & St. Paul and the Wisconsin Central roads; at Plymouth with the Milwaukee

Northern; at Sheboygan with the Lake Shore line. Trains leave Fond du Lac at 9:15 a. m., 1:45 p. m. (Accommodation) and 5:15 p. m.; Sheboygan at 6:30 a. m. (Accommodation), 7:10 a. m. and 2:30 p. m. Best connections are made by way of Fond du Lac.

***The Buildings*** — The church with the monastery are brick structures forming a large quadrangle. In the south wing of the latter are the kitchen and refectory for the students. The main building of the College is a massive edifice with a basement and four stories, containing study halls, dormitories, recitation rooms, recreation rooms, etc. St. Joseph's Hall contains a spacious dormitory, several rooms for piano practice and rehearsals, as well as a trunk room. St. Thomas Hall is devoted to literary assemblies, dramatical and musical entertainments and gymnastic exercises. A beautiful chapel has been erected at great cost for the exclusive use of the students. It is furnished with artistic altars, numerous statues and tasty decorations.

***Methods of Teaching*** — The success of our educational work is secured by the uniformity of method in the teaching of all instructors, who, in regular conferences, deliberate on the methods most natural, thorough and effective for the advancement of the student in the various branches of study, and faithfully adhere to the adopted methods of the institution.

***Discipline*** — For the maintenance of order reasonably strict regulations are necessary The students are under the supervision of the Rev. Fr. Prefect or his assistants; but obedience to the rules is enforced more by moral motives than severe methods. The Rector reserves the right to dismiss any student, who, after repeated admonition, shows a character so doubtful as to require extraordinary supervision.

***Degrees***—This institution, by virtue of the charter of the Province of St. Joseph of the Capuchin Order, is empowered "to confer such degrees and grant such diplomas as are usually conferred by similar institutions."

## SPECIAL DIRECTIONS

All necessary books, stationery etc. can be bought at the College at current prices.

No advances will be made by the College for stationery, clothing, pocket money, fares or other expenditure, unless a sufficient sum has been deposited.

Express charges on parcels sent to students must be prepaid. Eatables should not be sent to students except during the Christmas and Easter holidays.

All accounts must be settled before a student leaves the Institution.

# Seraphic... Scholasticate

THE SERAPHIC SCHOLASTICATE offers especial advantages to students desiring to become members of the Capuchin Community, and to serve God more disinterestedly as priests in the religious order.

The Scholastics have private rooms in the monastery. They also have their own refectory and recreation hall. They wear a light habit of brown cloth and take part in several of the religious exercises of the community, which enables them to observe and become familiar with the usages and practices of religious life before assuming its responsibilities. They are under the special guidance of a spiritual director, and visit the College only to attend the classes of the regular classical course.

Before students are admitted into the Scholasticate they must have been pupils of St. Lawrence College for at least one year and must have completed the second Latin class.

REV. BENNO AICHINGER, O. M. CAP.,
Director of Scholasticate.

The Third Order of St. Francis presents the best rule of conduct in the service of God and the work of salvation in every walk of life and under the most varied circumstances. ## SCHEDULE OF COURSES

The subjoined Schedule of Courses and Studies will be followed next year:

**The College** comprises a Preparatory and a Classical Course.

The **Preparatory Course** is arranged for those students who are not far enough advanced to enter one of the higher courses.

The **Classical Course** covers a period of five years, and embraces the study of Latin, Greek, English, German, French, Grammar, Composition, Rhetoric, Literature, History, Geography, the elements of Botany, Geology, Zoology and Physics.

**Christian Doctrine** receives the most careful attention, as there can be no real education or effective moral training without it. This instruction is based upon Catechism and Bible History in the first and second classes, upon the exposition of the ecclesiastical year in the third class and upon the evidences of the Catholic Religion in the fourth and fifth Course.

**Latin** is taught in all grades of the Classical Course. Paramount attention is paid to Precepts and Practice and the memorizing of Paradigms. No amount of translation of the prose and poetical Models is specified, but much time is devoted to the analysis and remodeling of the selections from classical authors. Translations from German or English into Latin, several times a week, in all the grades, affords the student ample opportunity to appropriate the words and phrases upon which he has been drilled in reading the Models.

**Greek** is taken up in the second year, and continued during four years on the same plan as the Latin. Three hours being devoted to it every week.

**English** is taught in all its phases, Penmanship, Spelling, Grammar, Composition, Rhetoric and Literature. Although the students are almost exclusively of German descent, the study of the English Language is by no means neglected, but receives all the attention due to its prime importance as the language of our country. Three hours a week.

**German** is obligatory in all courses in view of its essential value as an accomplishment and its positive benefit in active business life. The study of German includes Penmanship, Etymology, Syntax, Composition, Rhetoric, Poetry and Literature. A special feature of the institution is that several important branches are taught in German, and that the students make extensive use of German in their conversations. Prayers and exhortations, as well as table reading, are alternately German and English. Three hours a week.

**French** is optional for students of the third year and higher Classes. On account of the literary and practical value of the French Language its study is recommended. Two hours a week.

**Arithmetic** is one of the foremost branches in the first and second year classes, Algebra in the third and fourth, Geometry in the fourth and fifth. Three hours a week.

**History** is taken up in the first class, Bible History and United States History furnishing the texts for the first and second classes, Universal History in the third, fourth and fifth. Mythology is treated with the Latin and Greek Classics. Two hours a week.

**Geography** is treated as supplementary to History and as a prolific source of culture in the first and second classes. Two hours a week.

**Sciences** have been taught this year in the departments of Geology, Zoology, Botany and Physics. Two hours a week.

**Drawing** may be taken once a week, to acquire facility in the use of pencil and crayon in freehand sketching of landscape, portrait and architectural designs. Advanced students receive instruction in water color and oil painting free of charge except for materials.
